

Winter Fire

Big Country

In the corridors of power
No church watches over me
I'm alone but in a crowd
In a world no one can see

Who keeps who
...Safe from harm

Winter fires burn
Winter fires burn (winter fires burn)

In the houses of the holy
Where the weak hold up the strong
Disorder is the order
As the new boss takes a bow

Who keeps who
...Free

Winter fires burn
Winter fires burn (winter fires burn)

One by one, the houses that have stood are all
Breaking up
One by one the winter fires
Are already starting to burn

Winter fire burn
Winter fire burn Burn (winter fires burn)

One by one
One by one
One by one
One by one
One by one
One by one
One by one
