## You, Me And The Truth

## **Big Country**

There may be trouble ahead There may be light in the distance It may be something you said Maybe my lack of resistance

It took you so long to be young And just a second to be old Leave me a moment in the sun I've got forever to be cold

Some people can find a way
To get this thing together
But there's me
And there's you then there's the truth

How did you learn to be kind Where did you learn to be honest How do you learn to be blind Why do you whisper the promise

If you cant have what you want Why don't you use what you've got I won't do things that I can't I can't be something that I'm not

Some people can find a way
To get this thing together
But there's me
And there's you then there's the truth

Some people can find a way
To get this thing together
But there's me
And there's you then there's the truth

Maybe we should just be friends Maybe we'd be better strangers I know that everything ends I know the color of danger

All we do is hide the fire We just forget about the smoke Is that a smile with a future Or just a farewell to hope

Some people can find a way
To get this thing together
But there's me
And there's you then there's the truth

Some people can find a way
To get this thing together
But there's me
And there's you then there's the truth

But there's me Tištěno kwww,txp.cz And there's the truth
