

## Check List

### Big D And The Kids Table

i must've started life with a checklist  
i took the rules and broke 'em in two  
i must've started life with a checklist  
and the first was not giving in like you

you're burned out  
asking which half is me

you don't have to dress up  
it's not a fucking fashion show  
you don't have to kiss up  
i'm never going to go that low

my life's my book  
it is the story of what i write

my life's mine  
and no one said you could change what i write

my life  
too late, too soon  
my life  
too late for you
