### Big D And The Kids Table

Chin-chin, chadda-wadda-wa hey

Finding love in other nations  
Sunshine girls with late romancing  
Steering through life like the last real caption  
Feeling good's a simple combination

Tick, it's time now  
Boom!

"You drink too much"-That's what my mother screams at me  
"You look too rough"-My sisters are always naggin' me  
"He don't try enough"-Teachers holler at me  
But than I tune that all right out, Pop always said "You go live free"

So what's wrong ya'll?  
Nothing at all!  
Does the rest of the world know there's no stopping us all?

Play the music louder  
Dance a little smoother  
Stoke the fire bigger  
And let's love a little longer

Winks from girls in other nations  
Brought me to her favorite place then  
Found shadows to share secrets in  
Two free souls who got a lot in common
