

## Give A Demonstration

Big Daddy Kane

Give a demonstration  
To the whole rap world rhythm nation  
And take a taste of this verbal vibration  
With more color than you see on animation  
And bear witness to my smooth operation  
As I give the party people a sensation  
And give them all a good feel of jubilation  
Me and the mic become a good combination  
To rock the house without any complication  
The crowd'll give the Kane a standing ovation  
That just gives me even more motivation  
To pick up the pace and give you more fascination  
With the rhymes in my rap creation  
They show the power of the Kane's innovation  
And create an extravagant inspiration  
So here I am, to give a demonstration
