If You Died Tonight

Big Daddy Weave

I don't have it all together

Sometimes I find myself asking why oh why

But I know we don't have forever

So I'd be a fool to let this moment pass us by

So at the risk of sounding crazy let me ask you

If you died tonight, where would you be Where would your soul spend eternity Jesus gave His life
If you'd just believe it changes everything If you died tonight

You can call me narrow minded
But I believe that in your heart there lies the proof
And if you look down deep you'll find it
An empty place that is pointing to the Truth
You can hear His voice inside you
Gently asking

Say I need You I can't live without You Come and fill my life with Your glory, God
