

Crystal's Ball

Big Drill Car

Your story lends validity to itself
Scared straight brain wash bullshit maybe it'll sell
But just who will buy, sorry not I
All of ??? showed we just might surprise, yeah
Don't even bore me with crystal's ball
And in due time they rise and they fall
When all this urging turned trivial
Nobody, in all of the world did go
Can't help but wonder if there's anything madder now
To me the world seems so much sadder now
Just stare straight ahead
False move you're dead
Over and over this is where I've been fed, yeah
Don't even bore me with crystal's ball
And in due time they rise and they fall
When all this urging turned trivial
Nobody, in all of the world did go
