

## Duck And Cover

### Big Drill Car

I had to think because you had to ask  
What now to do with them I'm so distressed  
Now be surprised we knew it had to come  
I thank to god I'm not really able to die  
Standing like a monkey you know  
Laughin like hyenas at night  
So laugh with everything  
But be shaking his hand all the while  
I took my time just like a coffee break  
I thought it was and that's my mistake  
Can't get my ark done two by two  
The end is coming man can't you even fucking say die  
Standing like a statue you know  
Laughin like hyenas at night  
So laugh with everything  
But be shaking his hand all the while  
Most likely leads me to believe these lies than to succeed  
And now we hate to see you grow (seem to) What the hell we hate  
to seem to grow ???  
Before I talked to you we were doing fine  
No harm nobody just a couple of times  
And there's nothing really here for me to do  
We stand there watching porn to make it look like we'd died  
Standing like a statue you know  
We've been laughin like hyenas at night  
So laugh with everything  
But be shaking his hand all the while  
And it's wild (2x)
