

Friend Of Mine

Big Drill Car

She sits alone there just her and her dog
The jasmine vines won't take
And the shower drain's on the clog
And I'm not home now I'm out grasping at some straws
They've been known to break camel's back and loosen uptight jaws
And you're upset too, so I'll get it through
You know I need you
I'm not drowning in my beer
So let's make that one fact nice and sparkling clear
But if I'm drowning please spare me the line
Cause I'll probably end up with what I've wanted for sometime
And you're discontent, still don't get it yet
Can't say I blame you
I'll be there baby wait and see
This sight for sore eyes has to be
Don't go away don't please this friend of mine
Got me down on my knees this friend of mine
I stopped hounding years ago
Living in the best times babe
But man they move so slow
But if I'm standing in your way push me aside
Last thing I want to be is a thorn right in your side
And you're discontent
Feeling so hell bent
Can't say I blame you
Don't go away don't please this friend of mine
Got me down on my knees this friend of mine
Don't go away don't please this friend of mine
Got me down on my knees this friend of mine
And you're upset too, so I'll get it through
You know I need you, oh yeah
