

In Green Fields

Big Drill Car

Critters...

I saw something I want
And the thought of her still haunts
And it won't go away

I was so tongue tied I didn't know what to say
Now I'm miles from you
And I don't think you knew
How could you though

My mind moved fast but my tongue moved much too slow
And it's hard to say from far away
I want to see you in green fields
In green fields

A doll like face
You know she ran the place
And that was cool
I didn't make a move for fear of looking fool

And now I'm sad, she's the best thing I never had
And that's not right
It's been three months and I still lose sleep at night
And it's hard to say from far away

I want to see you in green fields
In green fields
Her face it shined, oh man she looks so fine
But I move slow

Saw her at the door and I hope I'll see some more
But I don't know
Next time you're there, please let her know I care
And that should be fine, I know I will get back there in time

And when I do, I'll see her walking through them green fields,
yeah
And it's hard to say from far away
I want to see you in green fields
In green fields

In green fields
In green fields
