

## In Green Fields

Big Drill Car

Critters...

I saw something I want  
And the thought of her still haunts  
And it won't go away

I was so tongue tied I didn't know what to say  
Now I'm miles from you  
And I don't think you knew  
How could you though

My mind moved fast but my tongue moved much too slow  
And it's hard to say from far away  
I want to see you in green fields  
In green fields

A doll like face  
You know she ran the place  
And that was cool  
I didn't make a move for fear of looking fool

And now I'm sad, she's the best thing I never had  
And that's not right  
It's been three months and I still lose sleep at night  
And it's hard to say from far away

I want to see you in green fields  
In green fields  
Her face it shined, oh man she looks so fine  
But I move slow

Saw her at the door and I hope I'll see some more  
But I don't know  
Next time you're there, please let her know I care  
And that should be fine, I know I will get back there in time

And when I do, I'll see her walking through them green fields,  
yeah  
And it's hard to say from far away  
I want to see you in green fields  
In green fields

In green fields  
In green fields
