

Mag Wheel

Big Drill Car

Well it's a big car
And it'll go far
You'll never know me
Until I let you
And it's a cease fire
For the mean time
And in the mean time
It feels like barb wire
And you'll spin
I said you'll spin
Just like a mag wheel
And time flows
But for the peep shows
But nobody goes
Because they'll get none
I said it sounds like fun
To hold a loaded gun
And make everybody run
From the separate sun
And you'll spin
I knew you'll spin
Just, just like a mag wheel
I said the time flows
But for the peep shows
But nobody goes
Because they know they'll get none
I said it sounds like fun
To hold a loaded gun
And make everybody run
From the separate sun
And you'll spin
I know you'll spin
Just like a mag wheel
