

No Need

Big Drill Car

It's been a while since I've thought of you
And a while longer I wish it'd been
'Cause now I sit here stewing
I wonder what you're doing

But I know with who you do it with
Whoa, can we be friends though?
Now you know a true friend would just let go
The final chapter is in sight now

And I know everything will be alright now
I never thought I could be happy
Without you by my side
And then I got this feelin

Inside I was reelin
The thought that love it'd died
Whoa, can we be friends though?
Now you know a true friend would just let go

The final chapter is in sight now
I know everything will be alright now, now
There's no need to fuss or
Fight over who is wrong or who is right

You go your way, I'll go mine
You just use your heroin
You would die cause that's all I got
Nowadays it's more than I ever had

At times I think I want you
Even though I fucked you, through the good and the bad
Whoa, can we be friends though?
Now you know a true friend would just let go

The final chapter is in sight now
And I know everything will be alright now
