

Cruel Fate

Big Head Todd and the Monsters

It's painful to realize
I've been on the back, I've been hypnotized a while
Troubled by the stack of un-traveled miles
I found out too little.
I found out too late
Cruel Fate

Memories of what went wrong,
Like a meteor returns to home,
Kinda steals away your life, away your song,
I'll sing mine anyway
Sing it.
So called destiny

But you won't let it go
Until you win Miss Universe
And then you won't reap what you sow,
There must be someone to blame, yeah
Cruel fate

If promises could punish you,
If thoughts could do damage to you
You can run but they'll follow you

But you won't let it go
Until you win Miss Universe
And then you won't reap what you sow,
There must be someone to blame,
We all suffer the same,
I found out too late. yeah
Cruel fate
