Soul Children

Big Head Todd and the Monsters

We are soul children.

Children of many colors. Walkin on a big black street

We all want different things.

We are soul children

Children of Freedom. Children of rock and roll.

Children of confusion.

We are running faster, reaching higher burning in the sun.

We are reaching farther but we have lost our Soul Children

We are soul children.

Yes I'm a brother, yes I do believe.

We are soul children. We must rise up from the deep.

We are soul children, try to feed our families and keep our mind free.

We are soul children, looking for a leader who'll do everything for 'me'.

We are running faster, reaching higher burning in the sun.

We are reaching farther but we have lost our Soul Children

We are soul children. Yes I'm a brother.

Yes I do believe.

We are soul children. We must rise up from the deep.

We are soul children. Children of a God better than the one on t.v.

We are soul children. We must rise up from the deep.

We can't lose our soul children.
