

Serve This Royalty

Big K.R.I.T.

Ah, the way the walks is beautiful, the way he talks is beautiful

Uh, the brother is beautiful

The way he makes love to me is beautiful

You know, that's my man!

Platinum chains and rings is

All a brother knows now

Girl, you one of the first to know

Gold is back in town

So you gotta serve this royalty

Believing in me and my dreams

Serving this royalty right

Trust what I say and what I see and we can get it

Yeah,

Money, cars and clothes, and all the cribs

Never trust these lames and hoes cause they ain't shit

Cause they'll just sink our dreams of things and jump ship

So we'll fly first class, full glass with blunts lit

Float on

I shake the world if you hold on

Get your body off, just to turn your soul on

Your black is gold so when it dark, get your glow on

My words are heavy like a Chevy, shall I roll on?

Our love's unlimited, vinyl record in the grooves of forever, bass and treble, bend this shit

Puff cut your affections like a painting God ain't finished with

Now had to be displayed so all these songs could say they finished it

I walk the talk so I can't run game

I'm the type of King that a need a Queen that's down to work and run thins

I'm a lion baby, untamed

Before I devote my all I need to know one thing,

Can you serve this royalty

Whatever your heart desires

And to those that oppose our dreams and goals I set the world on fire

Go to war with giants of all kinds so when you sleep without your King beside you you sleep fine

I be you knight in shining armour, swing down with a hammer like Thor for those that want drama

Travel high and low for those expensive garments that I

Peel off your frame after I fight in your honour

Cause we can rule as far as the eye can see

If you down for the cause as long as your body breathe

Bet the heir that will proceed as Kings that's after me

But be colder than doors we close you'll have to be

There'll be tyrants that want nothing more than apathy

To defile on the kingdom of real and happiness

But history will whisper of our reign

Before I give my all, I need to know one thing,

Can you serve this royalty

The dream is real if you serve this royalty
Leave your mama's house, make her proud
Serve this royalty right
From the valleys of Spain to the snowed banks of Maine
We can run this game
If you serve this royalty right

That's right, she's behind me 100%, man
She believes in everything I believe in
And whatever I do, she go and ride along with me and do
it at the same time, you know?
With no doubt in her mind cause she know that I'm
positive, and she knows that I'm out to get over, and
she knows that I'm a try and get a piece of this
country
