

# Can't Be Satisfied

Big & Rich

As I'm watching you breathing, sleeping in my arms  
Empty Champagne glasses on the floor  
Holding you close, I'm so far from where we are

No I can't, I can't be satisfied  
Tell the truth...you'd love it if I lied  
The words I love always seem to twist me up inside  
No I can't, I can't be satisfied

Everything that I love leads me straight to you  
But these tangled sheets can't keep us in this room  
I need you more than anything, but it's still not enough

No I can't, I can't be satisfied  
Tell the truth...you'd love it if I lied  
The words I love always seem to twist me up inside  
No I can't, I can't be satisfied

It's so hard to leave tonight  
Guess I'll leave this heart behind

(3x):

No I can't, I can't be satisfied  
Tell the truth...you'd love it if I lied  
The words I love always seem to twist me up inside  
No I can't, I can't be satisfied
