

# Thank God For Pain

Big & Rich

Crushed, smoked, twisted up  
And burned like a cigarette  
Tossed away  
In the rain with no regret  
I've been dying on  
The bad side of a goodbye  
One fall away from the edge  
When you kissed me back to life

Thank God for Pain  
Cause I never would've known  
That love could feel this way  
And I know it sounds insane  
But thank God for scars  
Cause every jagged little one  
Got me closer to where we are  
And if I hadn't been ripped apart  
I never would've kissed your face  
Thank God For Pain

I was left, I was lost  
Heartbroke, down, and out of luck  
I was used, all confused  
I was covered up and black and blue  
If I'd never known that hurt  
Or felt that misery  
I'd have never known baby  
How much you mean to me

Thank God for Pain  
Cause I never would've known  
That love could feel this way  
And I know it sounds insane  
But thank God for scars  
Cause every jagged little one  
Got me closer to where we are  
And if I hadn't been ripped apart  
I never would've kissed your face  
Thank God For Pain
