

O, Dana

Big Star

I rather shoot a woman than a man
I worry whether this is my last life
And girl, if you're listening
I'm sorry, I can't help it

O Dana
O Dana, come on

I'm forevermore fighting with Steven
We do our goo-goo-koos
But we know
Overboard and down
And strung out twice

O Dana
O Dana, come on

We seldom know what things are
Two illusions going very far

O Dana
O Dana, come on

I got busted across the bridge
They rounded up every soul
Now never the East Side
She says, "Don't give a girl a chance"
She's not afraid to take a chance

O Dana
O Dana, come on

She's got a magic wand
That says play with yourself before other ones

O Dana
O Dana, come on, come on
O, O Dana, Dana come on
