

Speed Of Sound

Big Star

I remember the first time
You said you loved me
I waited all weekend
You never called me

So you find him attractive
So what if he is
You'd like some excitement
You could count his same kiss

So it goes
On and on
My love grows
And yours is gone

A lonely existence
Well it's just a lie
If there is a reason
I'd like to know why

Something I want you to know
I've told you this once before
Don't want you to see him no more

Once again
You've let me down
Broke my heart
And turned me round

There's a light in the darkness
It doesn't seem far
Is something the matter
ajar

The plane goes down
Will not land
Pilot's dead
Nowhere to be found
