

## Speed Of Sound

Big Star

I remember the first time  
You said you loved me  
I waited all weekend  
You never called me

So you find him attractive  
So what if he is  
You'd like some excitement  
You could count his same kiss

So it goes  
On and on  
My love grows  
And yours is gone

A lonely existence  
Well it's just a lie  
If there is a reason  
I'd like to know why

Something I want you to know  
I've told you this once before  
Don't want you to see him no more

Once again  
You've let me down  
Broke my heart  
And turned me round

There's a light in the darkness  
It doesn't seem far  
Is something the matter  
ajar

The plane goes down  
Will not land  
Pilot's dead  
Nowhere to be found
