

## Thank You Friends

Big Star

Thank you, friends  
Wouldn't be here if it wasn't for you  
I'm so grateful for all the things you helped me do.

All the ladies and gentlemen  
Who made this all so probable

Thank you, friends  
I rejoice to the skies  
Dear ones like you do the best I do  
As far as can see my eyes

All the ladies and gentlemen  
Who made this all so probable

Without my friends I got chaos  
I'm often a bead of light.  
Without my friends I'd be swept up high by the wind

do, do.....

All the ladies and gentlemen (I said all)  
All the ladies and gentlemen (I said all)  
All the ladies and gentlemen  
Who made this all so probable

Thank you friends (thank you again)  
Thank you friends (thank you again)  
Dear, dear friends (thank you again)  
Thank you friends (thank you again)  
And again, and again....  
Never too late to start
