

The India Song

Big Star

I'd like to go to India
Live in a big white house in the forest
Drink gin and tonic and play a grand piano
Read a few books
Far from what saddens my heart
Try to live away from it

Find a new girl
Who says she feels the same
Get to know her after the trip
Bathe in a forest pool
Her life a part of mine
And let no one know until I'm gone
