

So Not Over

Big Sugar

Right about now
I'm gonna tell you all a little story
I'm gonna make up a story for you
'Cause I can't think of one that's true
And I'm not sure what you do
Baby, now wait a minute

I heard that you mentioned my name
When you were looking 'round for someone to blame
Well, you're gone and ain't it a shame
You talkin' 'bout

(It's all over)
Don't say that
Don't say it's over, it's so not over
(It's all over)
Please don't say that
Don't say it's over, it's so not over
Don't say it's over, it's so not over

Wait a minute
Fellas, don't you lie to your woman
Although it's hard

She was wild as a bug about me
At least about the half she could see
And now it's a quarter to three
She's talkin' 'bout

(It's all over)
It's all over
Don't say it's over, it's so not over
(It's all over)
Please don't say that
Don't say it's over, it's so not over
Don't say it's over, it's so not over

She said, "Ooh ooh, boo hoo"
She said, "Ooh ooh, boo hoo"
Watch out, watch out, watch out

I'm in love with a woman who knows
That she can't judge a man by his clothes
She's talkin' 'bout

(It's all over)
Please don't say that
Don't say it's over, it's so not over, baby
(It's all over)
Please don't say that
Don't say it's over, it's so not over

(It's all over)
Baby, baby, baby
Don't say it's over, it's so not over
Don't say it's over, it's so not over
Don't say it's over, it's so not over

Don't say it's over, it's so not over

Don't say it's over, it's so not over

Don't say it's over, it's so not over

Fa fa fa fa fa fa not over

Fa fa fa fa fa fa not over

She said, "Chaing chaing chaing

Chaing chaing le"

"Chaing chaing chaing

Chaing chaing le"

"Chaing chaing chaing

Chaing chaing le"

"Chaing chaing chaing

Chaing chaing le"
