

Long Time Comin'

Big Tent Revival

Don't know where to begin or how to explain
This feeling within. There it goes again
Just a moment ago I said I wouldn't believe
But you touched my soul, and now I
Couldn't conceive
All the things you did just to get through
Looking back on my life now it's clear to me
All the things you brought me through,
So dear to me
Even though it seemed all of the sudden
It's been a long time comin'

Signs of danger, I can recall
And words from a stranger seemed like
Nothing at all
People been praying from my childhood
To youth
Then there's that man who just told
Me the truth
...All the things you did just to
Get through

You've brought me this far. Who's to say
You won't carry me through the rest
Of my days
