

# A Million Days

Big Wreck

It falls out like a thousand ways  
Of my mouth and how I behave  
You never see the both of us  
In the same locations  
A stone's throw from a basket case

So how'd you navigate this run around  
I'll keep anything from getting out  
Yeah just one more wake up call  
And my fist goes through the wall

Stay with me for a million days  
Stay with me for a million days  
Stay  
Stay  
Stay

Black wine and the faults you gave  
Running down another line  
As I misbehave  
All of these very things are not enough  
I'll keep drowning in these hand outs

A real man never acts so brave  
And I got a recipe for rage

Stay with me for a million days  
Stay with me for a million days  
Stay  
Stay  
Stay

Stay with me for a million days  
Stay with me for a million days

Oh I know it ain't perfect  
It's all we got  
Does it really make a difference  
If you're with us or not?  
Oh I know it ain't perfect  
It's all our own  
Every little bit of it is home grown

Stay with me for a million days  
Stay with me  
Stay  
Stay with me for a million days
