

# Blown Wide Open

Big Wreck

So I'm all surrounded  
By the things I thought I put away  
And I'm all surrounded  
By the things I thought I put away  
And there's a pile in the closet  
That's where I threw some yesterday  
Maybe under the rug  
That's where I swept some the other day

So the mess is drawing forces  
Outside I hear them say  
Just come out with your hands up  
So we can blow you away  
And I walk out the door  
Get blown wide open  
By the things I put away  
And I wasn't even warned  
Just blown wide open  
Now the mess is where I lay

So I'm all surrounded  
By the things I thought I put away  
So I'm all surrounded  
By the things I thought I put away  
And if I'm a slob  
Well I never looked at it that way  
Irresponsible  
Well you're not the first to say

But I told her I'm sorry  
I never wanted it this way  
Yeah, I still need her  
But the mess won't go away

And I walk the door  
Get blown wide open  
By the things I put away  
And I'm out on the porch  
Just blown wide open  
Now the mess is where I lay

Yeah, blown wide open  
Blown wide open  
Blown wide open  
Blown wide open  
The gun's still smokin'  
Blood keeps flowin'  
Blown wide open  
Blown wide open  
While she's going

All surrounded
