

Ghosts

Big Wreck

So faint, the walls behind me now
I know where they stand
I know the way
Home

Outrun the storm above our heads
Ev' ry other day
I know the way
Home

And if the stars all aligned
And my hands were untied
If these ghosts let me go
I would set fire to them all

Beware the dust gets in your eyes
Can't see through the lies
I know the way
Home

As the horizon greets another day
A shame we couldn't stay
I'm on my way
Home

And if the stars all aligned
And my hands were untied
If these ghosts let me go
I would set fire to them all

And if my scars were tattoos
I could hide them in plain view
If these ghosts let me go
I would set fire to them all

Ahhh, if the stars all aligned
And my hands were untied
If these ghosts let me go
I would set fire to them all
