

Look What I Found

Big Wreck

It's fully operational
We don't even have to sell
I rooked it but what the hell
It's someone else's soul, oh well

It's stolen but it's okay
If integrity says no way
Well now it's here to stay
So let's go outside and play

Well I suppose so
Well I never did really want to know
How can you walk around
With your feet up off the ground
How can you steal their sound
Keep your ears below the ground
Take a look around
Look what I found

No one will ever notice
That all your shit is bogus
And never go for the fear
That someone like me might hear
This schtick is gettin' thinner
But you'll come out a winner
Cheque's already in the bank
You've forgotten who to thank

And weak is what you bring
And what I need is the real thing
How can you walk around
With your feet up off the ground
How can you steal their sound
Keep your ears below the ground
Take a look around
Look what I found

Well I suppose so
Wonder if we'll ever know
How can you walk around
With your feet up off the ground
How can you steal their sound
Keep your ears below the ground
Take a look around
Look what I found
