

# Rest Of The World

Big Wreck

Well there's this man of the world  
Who gets all the girls  
And does what he wants to  
I was in his employ  
Since I was a boy  
Was the orders that I outgrew

The only thing I have to figure out  
Is how can I take everything  
And cut him out

Give me the rest of the world  
All the pretty girls  
Who likes to take down bows  
And everything  
Find the one down below  
Who knows it's all a show  
Cause that's the only one thing  
Bringing me down

Ask me how do I sleep  
The skeletons I keep  
It's easier than you'll know  
What became of the man I replaced  
Some may know his face  
Kicking through the dirt and snow

There's one thing that haunts me  
To this day  
Just before I put him out  
I heard him say

Give me the rest of the world  
The diamonds and the pearls  
And everything  
Find the one down below  
Who knows it's all a show  
Cause that's the only one thing  
Bringing me down

A lone ambition  
With a side of greed  
(A side of greed)  
At the expense  
Of a friend in need  
(A friend in need)

Give me the rest of the world  
All the pretty girls  
Who likes to take down bows  
And everything  
Find the one down below  
Who knows it's all a show  
Cause that's the only one thing  
Bringing me down

Give me the world

Give me the world  
Give me the world  
Give me the world  
The bows and everything  
Give me the world  
Give me the world  
Give me the world  
Give me the world
