So you watch me float around For two weeks straight And the things you love will drown With the things I hate Oh well

It's only for a while
Until I get things right
Just let me dream all day
And stay up all night

I know what your saying When you're not really talking right Who are you fooling?

'Cause I'm going forwards and Looking backwards Virginia I'm going forward And looking back West Virginia

You live you love you learn You lose you gain And you know you'll never win You can't even quit the game

You know you'll never win You can't even quit the game You know you'll never win But you can't even quit the game

I know what your saying When you're not really talking right And who are you fooling? Who?

'Cause I'm going forwards
And looking backwards Virginia
'Cause I'm going forwards
And looking back West Virginia

'Cause I'm going forwards
And looking backwards Virginia
'Cause I'm going forwards
And looking back West Virginia

'Cause I'm going forwards
And looking backward Virginia
Cause I'm going forwards
And looking back West Virginia

West Virginia
