

Come Be My Lady

BigBang

Been together for a while now
Gettin' closer everyday
I wake up in the morning and smile
Happy to be your side
Don't you get me wrong now
Before we go on
Got a thing I need to know
Think it through, just be sure

The life we live (livin')
The way we lie (lyin')
It's all about the G's (Baby)
The way we think (Thinkin')
The choice you make (Makin')
It's all about the G's (Baby)

I can show you what you've always dreamed
you can live a life of luxury
I'm just tryna think of you and me
so so cold

I don't wanna doubt you
Your love is really true
But you see money talks
Can easily flip your thoughts
Wanna know if you love me more
Than the Gucci's and Dior
Losin' you I can't afford
You're the one I adore

The life we live (livin')
The way we lie (lyin')
It's all about the G's (Baby)
The way we think (Thinkin')
The choice you make (Makin')
It's all about the G's (Baby)

I can show you what you've always dreamed
you can live a life of luxury
I'm just tryna think of you and me
so so cold

I can show you what you've always dreamed
you can live a life of luxury
I'm only thinking about you and me
so cold

Too many play it dirty
The rocks will make'em crazy
I need your honesty
(It's all about the G's)
(oh) Too many play it dirty
The rocks will make'em crazy
I need your honesty
(It's all about the G's)

let me show you - I can love you

from the depths of my heart
I won't ignore you - I'll adore you
this world--is so cold

I can show you what you've always dreamed
[don't be so shady]you can live a life of luxury baby
I'm just tryna think of you and me
so so cold
[but that's how it goes]
