Yeah we back Big Bang aw yeah

Throw your hand's up in the air

The alleyway streelight flickers  
The lights twinkle one by one  
Feel this familiar deep night, whoever you are  
There's no need to care about the other's eyes  
In the jungle of buildings that fill up Seoul  
You shine more than the neon signs  
I'm scared that you might leave  
Everything about this brilliant night is intense but  
I'm getting turned on at this moment  
Do wanna be together today?

The night isn't that long  
It's not easy to just stop  
Everybody move move  
The happy mothers and fathers

Leave the music like this  
Dance and sing loudly  
Don't stop this feeling  
It can't get any better than this (x2)

Ma baby your red lips look like cherry red  
My eyes are fixed and steady  
But just looking would be impolite  
Hey my baby I'm your daddy  
Look, I can't let you go with this reluctant feeling  
Between us, there's already no limit  
Don't be shy, it's just one one night  
The lights go off and it's silent  
Oh my goodness, there's a twist to her, she's so hot call 911

The night isn't that long  
It's not easy to just stop  
Everybody move move  
The men and ladies

Leave the music like this  
Dance and sing loudly  
Don't stop this feeling  
It can't get any better than this (x3)

Let's move here we go  
Get loose ya'll know

We gon reach for the sky yup  
Party like our time's up  
Let's move here we go  
Get loose ya'll know  
Throw your hand's up in the air  
Jump on up like you don't care

I'm crazy more than ever  
I'm crazy more than ever  
And it feels so right  
Tonight is the night  
I'm crazy more than ever  
I'm crazy more than ever  
And it feels so right  
I can't stopped
