

## Make A Circle

BigBang

Because your smooth  
But not too special, really really cute though  
The way you look at me  
Is gonna wear my heart out  
And Trouble stands laughing hard now  
He's waiting by my door  
Mother nature what is the story here  
And what is it for  
I'm not awake today  
And I'm not asleep tonight  
I've got some principles  
And now they'll have to fight  
What's that moving breaking my line  
Now make a circle come on roll into mine  
What's that curving and breaking my line  
Now make a circle come on roll into mine  
Your strange perfume,  
Fresh coffee and the morning light  
Casts a shadow that slowly grows on to your right  
Some say that it's wrong  
Some say that it's fine  
What's that moving and breaking my line  
Make a circle roll into mine
