

Who Am I To Say

Bigwig

I know what your thinking responsibility scares you to death.
We'll this is the last time your ever gonna meet this mess again.

Why don't we talk about it I don't want to fight about it.
Hey who am I to say well I think you're acting a little out of line.

Hey what you gonna do when none of your friends will come back to you.

Some people say that life's a bitch but I'm not one of those.
It's what you make of it what you make of the path you choose.
Why don't we talk about it I don't want to fight about it.
Hey who am I to say well I think you're acting a little out of line.

Hey what you gonna do when none of your friends will come back to you.

Hey it's a beautiful day now go enjoy it while the time is right.
