

## Strawberry Julius

Bikini Kill

It's you,  
All over my skin,  
Taking invisible streets  
To the fake place  
Where we win.....  
Watch me now,  
From the backa the room,  
Just don't touch me with  
Yr bare hands  
Whatever you do.....  
I wanna burn baby burn  
Baby black and blue  
Burn it baby burn it baby  
Burn with the truth  
Ask you what the fuck  
What the fuck  
What the fuck  
What the fuck did they do to you?  
(who needs a beat when the beat just goes)  
I gotta tell you something.  
I gotta tell you something.  
Your palm  
The backa my neck.  
It means more than any porn  
I wanna forget.  
(maybe baby I just wanna forget)  
I'll say something wrong  
Say something wrong wrong right  
Say it so wrong  
Say it wrong  
Say it right  
Just stay here and be with me  
For real  
Stay in yr body to-night.  
I'll be yr mama, yr sister,  
I'll be yr fuckin dad,  
I'll be the best little baby  
That you ever had had  
'cause I got more tongues  
Than just this one  
Yeah, yeah, yeah yeah yeah  
(who needs a beat?)  
I've got to go now  
I've got to go now
