

## Right at the Core

Bilal

Right at the core, you got me right at the core  
It's the part of love and war  
You shot me down  
Straight to the heart  
Right at the core, you feel the door  
Into forever more, and more

At the core, got you at the core  
You try to hate me, but your heart is still there  
So much more, so much more, so much more  
There in your core  
Won't take it back, ease up for more  
But your heart can't cool, can't cool, no

Deep down inside, you're be right the core  
You try to fake, but you just can't go, no,  
There's no hope, no

Right at the core, you got me right at the core  
It's the part of love and war  
You shot me down  
Straight to the heart  
Right at the core, you got me right at the core.
