

Slipping Away

Bilal

Slipping away, your love is, slipping away
For a while
What can I do to change you mind
Talk it back for me late
Slipping away, your love is, slipping away
For a while
I see it in your eyes
And in your voice
Remember, the times we had
Before it all went south
And fell apart

Oh, slipping away, you love is slipping away from me
What can I do to change your mind
Talk it back for me late
Yeah, don't you trip, yeah

Slipping away, your love, slipping away
What can I do to change your mind
Hide back from it lady,
Remember, the times we had
Oh the nights we've shared alone
All the life we showed for something
Something, something,
Oh don't leave me alone,
Don't leave me alone
I be missing you baby, ehe
Yeah baby, oh baby, don't go
Oh baby don't go, don't go
Oh baby, oh, don't go.
