

Green Day

Bile

Toxins in the airways,
Venom for all to taste.
A death grip love for my remote,
Spewing blood, s*** and paste.
Help me take my medicine,
So the pain will go away.
I'm all f***ed up on Valium,
I can't move my lips to say
The world is so beautiful,
Everything's OK
The world is so beautiful,
What the f*** day is it today?
It's a green day you dumb f***!
