

Always Remember

Bill Anderson

Always remember I love you
I love you, only you
Always remember your whole life through
I love you, just you

I'd give anything in this world
If I could be with you right now

And hold you real tight in my arms
But since I can't I thought maybe if you knew
How much I missed you
It might help you feel peaceful and warm

Always remember I love you
I love you, you just you
Always remember your whole life through
I love you, just you

And I ever thought I won't be there
To lay down beside you tonight
It's not because I don't care
Darling, you're in every thought that I think

Every dream and every prayer
So always remember I love you
I love you, just you
