

It Feels So Good (To Feel So Good)

Bill Anderson

Your love eased into my heart like a mornin' sunrise
At the end of a cold and lonely rainy night
I was nearly to the end of my road, out of mind and out of hope
But you believed in me and gave me strength
To try again and get it right

Now it feels so good to feel so good about love
To be so close to you after being so close to givin' up
I found you and ever since then life's started makin' some sense again
It feels so good to feel so good about us
And it feels so good to feel so good about love

In my wildest dreams not once did I imagine
I'd ever find myself in the arms of a woman like you
I was ready to throw it away, give it all up and call it a date
But you believed in me and made me see that I could believe in me too

Now it feels so good to feel so good about love
To be so close to you after being so close to givin' up
I found you and ever since then life's started makin' some sense again
It feels so good to feel so good about us
And it feels so good to feel so good about love
And yeah, it feels so good to feel so good about love
