

Wild Weekend

Bill Anderson

Got the alarm clock set for seven got the taxi called for nine
Plane takes off at eleven and I gotta be there on time
Told the boss I was going to my mother's told mama I was gonna
see a friend
Don't want no one to know I'm slippin' out of town on a wild we
ekend
Gonna have a wild weekend gonna have a wild weekend
With the pretty little blond haired blue eyed darling gonna hav
e a wild weekend

Well we might go up to the mountains we might go down to the se
a
Somewhere off from the big wide world just my baby and me
Baby's gonna cook me breakfast baby's gonna tuck me in
Baby's gonna warm my cold cold lips with kisses on a wild weeke
nd
Gonna have a wild weekend...

I guess we'll talk about the future make a lotta plans and stuf
f
Mostly though we're just gonna sit by the fire and make a lotta
love
Every man oughta try it least one time in his life
Just get away on a wild weekend like I'm gonna do with my wife
Gonna have a wild weekend gonna have a wild weekend
With the pretty little mother of my two children gonna have a w
ild weekend
