

## A.B.C. Boogie

Bill Haley

Down around the corner in a little school  
Children learn their lessons and the golden rule  
'Cause they got a teacher up from Basin Street  
And she does her teachin' with a boogie beat  
Teachin' the ABCs with rhythm and ease

But every single mornin' it's the same old thing  
All the kiddies waitin' for the bell to ring  
When they hear it ringin' they all jump in line  
They hop into the classroom feeling mighty fine  
To learn their ABCs with rhythm and ease

Well, a-readin', writin', arithmetic  
Taught to the tune of a licorice stick  
No education is ever complete  
Without a boogie woogie woogie beat

When the day is over and it's time to go  
The kiddies grab their books and stand right at the door  
Teacher is so happy, 'cause she's done her bit  
To educate the kids and make 'em really fit  
To learn their ABCs with rhythm and ease

Well, a-readin', writin', arithmetic  
Taught to the tune of a licorice stick  
No education is ever complete  
Without a boogie woogie woogie beat

Now when the day is over and it's time to go  
The kiddies grab their books and stand right at the door  
Teacher is so happy, 'cause she's done her bit  
To educate the kids and make 'em really fit  
To learn their ABCs with rhythm and ease
