

# Break In The Clouds

Bill Mallonee

For God's sake man, just look there as the city sleeps  
She's all tangled up in her dirty dream sheets  
And the storms? Well, they're all spent now  
Here is your dusty pearl.  
She's such a lonely girl  
Here is another world...and a break in the clouds

I couldn't find my name on your guest list once again  
But the door-man of life just opens up and lets me in  
To your room where your tweed is sweet and loud  
She is a shiny girl  
Kind of a solid state girl  
Here's is your other world...and a break in the clouds

Now what i found about the truth is she usually don't get  
heard  
And what i think about Love is she always gets the last  
word on the streets of this God-forsaken town  
That is a shiny pearl  
She's such a pretty girl  
Ah, yeah in this God-forsaken town  
She's such a lonely girl  
Kinda of a dusty pearl  
Here is your other world....and break in the clouds
