

# Once Your Heart Gets Broken (it Just Keeps On Breaking)

Bill Mallonee

It came as a whisper...yeah, it came in the night  
Just as you were driving...past the neon lights  
And it was last call...surely that's enough said  
All that once was given...turned from green to red

CHORUS:

One thing they don't tell you...but, there is no  
mistakin'  
Once your heart gets broken, kid...it just keeps on  
breaking

Another one down...3rd one this week  
Reporters speculate...about toxicity  
And it was said that he trafficked...with magic potions  
Aren't we're filling our holes? Aren't we picking our  
poisons?

CHORUS:

One thing they don't tell you...cause we're good at  
fakin'  
Once your heart gets broken, kid  
It just keeps on breaking...it just keeps on breaking

All the simple truths...that take you by surprise  
They come into sharp relief...in a certain slant of  
light  
Time to drop you bags...time to pick up your key  
Don't worry tipping the bellboy...you won't need your  
things

CHORUS:

One thing they don't tell you...till after you're  
shaken  
Once your heart gets broken...  
It just keeps on breaking...  
It just keeps on breaking
