

## Foggy River

Bill Monroe

Your love is colder than a foggy river  
Rollin on a heart of stone  
You left me stranded on this foggy river  
Cold and helpless and alone

I knew someday that you would turn me down  
I got worries on my mind  
Yes I'm doomed to sail this foggy river  
Till I leave my love behind

There's no tomorrow on this foggy river  
Only memories linger on  
A mist of sorrows fills this foggy river  
Everything I had is gone

I can't escape this broken heart of mine  
I've no freedom anymore  
Heaven help me on this foggy river  
Till I reach that distant shore
