## **Dedicated To You My Love**

**Bill Withers** 

Dated till each of us runs out of time Dedicated to you my love And if I could think of a piece of a rhyme Dedicated to you my love

And if the way I speak my love seems silly of me It's only cause you got me feeling good and happy And I must say it's neat my love that it really can be I reach for love, reach out for love, and you let me

And if I could find me a mountain to climb Dedicate it to you my love I'd swim me an ocean if I had a mind Dedicate it to you my love

And if the way I speak my love seems silly of me It's only cause you got me feeling good and happy And I must say it's neat my love that it can really be Reach for love, reach out for love, and you let me

And if I could find me a mountain to climb Dedicate it to you my love I'd swim me an ocean if I had a mind Dedicate it to you my love

Thanks for the feeling Hope will last with you Thanks for the time That I've had in the past with you
