

# I Don't Want You on My Mind

Bill Withers

I don't want you on my mind all the time  
I believe that it shows a sign of weakness  
I don't want no lonely nights that gets me cryin'  
I found out I don't get nowhere with weakness, if I dream about  
you  
I just wake up knowin' that I've got to do without you

I don't want you all the time doin' up my mind  
I don't want you on my mind all the time

I don't want you on my mind all the time  
I believe that it shows a sign of weakness  
I don't want no lonely nights that gets me cryin'  
I found out I don't get nowhere with weakness, if I dream about  
you  
I just wake up knowin' that I got to do without you

I don't you want all the time doin' up my mind  
I don't want you on my mind all the time
