

Make a Smile for Me

Bill Withers

Make a smile for me
Lately I've been so lonely
And a smile from you might make these blues go away

Stay a while with me
Can't you tell I've been lonely
And a smile from you might make it a nicer day
Close your eyes and dream of a sunny place

Watch the world light up when you smile
Stay with me and smile at me sunny babe
Chase the clouds away with your smile

Make a smile for me
Lately I've been so lonely
And a smile from you might make these blues go away

Stay a while with me
Can't you tell I've been lonely
And a smile from you might make it a nicer day
Close your eyes and dream of a sunny place

Watch the world light up when you smile
Stay with me and smile at me sunny babe
Chase the clouds away with your smile

Your smile (3x)
