## We Could Be Sweet Lovers

**Bill Withers** 

Sweet life, it just can't be paradise But if you think it's alright Ow baby, we could be sweet lovers in the night I'd be faithful and I could treat you nice Ow baby we could be sweet lovers in the night If you think I might be someone you could like What if you were my lover?

I could spend my lifetime holding on to you, my lover I could spend forever holding on to you Spend my every nighttime holding on to you, my lover 'Til the end of never holding on to you Sweet life, just can't be paradise But we can make it quite nice Ow baby we could be sweet lovers in the night If you think I might Be someone you could like What if you were my lover?

I could spend my lifetime holding on to you, my lover I could spend forever holding on to you Spend my every nighttime holding on to you, my lover 'Til the end of never holding on to you Sweet life, just can't be paradise But we can make it quite nice Ow baby we could be sweet lovers in the night If you think I might Be someone you could like What if you were my lover?
